ARTESIAN IRRIGATION.

What is Being done on the Colonization Lands.

Another artesian well is to be sunk on the large flats of the Kahuku ranch, Oahu, by Mr. Cooke, well-borer. One lately sunk there by the same contractor flows 10 inches in a clear column above the surface. Water was struck at 200 feet depth, after which another 100 feet was gone down. It went through 100 feet of soil from the surface. The new well is to be driven near the ranch house, about 38 miles from Honolulu in either direction. There is an area of 2,500 to 3,500 acres of flat and valley land to be benefited by these irrigation works, and \$20 an acre has been offered for part of it. The property is included in the lands of the Oahu Colonization Company, according to the open offer of the present proprietor, Mr. James Campbell, who is having these wells sunk, however, independent of that scheme.

SUPREME COURT.

Probate Division.

In the estate of J. M. Daigle before the Chief Justice, yesterday, the Court filed its decision modifying the Master's finding of the worth of the widow's dower, by making the expectation of her life 40 years, instead of 30. BANKRUPTCY OF J. LYONS.

Before Judge Preston, Jacob Lyons, auctioneer, appeared before His Honor and prayed that he be adjudged a bankrupt. The Court adjudged him bankrupt and appointed Thursday, January 13th, 1887, the day for proof of claims and election of assignees. The heaviest creditors are in San Francisco, the largest creditor in Honolulu being G. Houghtaling, whose claim amounts to \$1,000. The bankrupt's assets are \$5,380.02, liabilities \$16,637.34. Value of goods on consignments \$5,940.10; total assets, \$11,320.12. The Marshal was ordered to take possession of the bankrupt's property and to dispose of the perishable goods by removing them to the auction rooms of E. P. Adams & Co. R. F. Bickerton for petitioner.

Honolulu Rifles.

This corps had its monthly meeting last evening, with a splendid muster of nearly forty members. Five new members were enrolled. The night of regular meetings was changed from Wednesday to Thursday. Votes of thanks were passed to Hon. John A. Cummins, chairman, and the other members of the Jubilee Committee for courtesies extended to the Rifles during the festivities, and to the Hawaiian Rifle Association for the use of its shooting range. Capt. Ashford gave orders for a radical change to begin forthwith in the matter of drill. Instead of drilling in company, the corps will be drilled in squads by the different sergeants. This applies to all the members, not merely to recruits, and is calculated to be of advantage to the sergeants as well as to the rank and file, besides being the regulation method.

Of Interest to K. P's.

The report of the proceedings of the Supreme Lodge of Knights of Pythias, the meeting of which was held at Toronto, Canada, in July last, has been forwarded to the Deputy Supreme Chancellor of the Order here, Mr. David Dayton. A matter of special interest to members of Oahu Lodge had been taken under consideration by a committee of the august body and the committee have ordered that certain members, born of Caucasian fathers and Hawaiian or partly Hawaiian mothers, are to be regarded as fully invested with all the powers and privileges of Knights of Pythias. The decision has been awaited anxiously by a number of the members of the local Lodge and the outcome of the deliberation of the Supreme Lodge on the matter has given much gratification to them.

The case was then further remanded until to-day. A great quantity of the books, ticket slips, counters, candles and other truck seized with the prisoners was piled on the tables and floor of the Court room.

THE FIRE BRIGADE.

Meeting of Companies Last Night.

Engine Co. No. 1 had their monthly meeting in their hall, King street, last evening, Mr. Robert More, foreman, presiding, and Mr. H. Barber, secretary, being at his post. The foreman, as chairman of the committee on decorations, reported a surplus of \$10 left from the \$50 granted the company by the Jubilee Committee for decorating the hall on the night of the torchlight procession. As on similar occasions formerly the balance has usually been on the wrong side, the good management of the committee was much appreciated by the members, who tendered the committee a vote of thanks. The representatives at the Board were instructed to vote for the division of the \$500 donated by the Inter-Island Steam Navigation Company, as recommended by the Chief Engineer at the last meeting of the Board. Other business transacted was of a routine nature, including the rejection of a candidate for admission.

Mechanic Engine Co. No. 2 met in their hall at the Bell Tower, Mr. Jas. T. Morgan, foreman, presiding, and there being a muster of 21 members. After transaction of routine business, the following resolutions were moved by Mr. Henry Smith, secretary, seconded by Mr. C. J. McCarthy and unanimously passed:—

WHEREAS, it has pleased Almighty God to remove by death the late lamented William B. Wright, one of the organizers of Mechanic Engine Company No. 2 and the first member to sign the roster of said company; and

WHEREAS, It is but fitting that we should at least respect the memory of him who so faithfully served the Honolulu Fire Department in various capacities and the interests of this company in particular:

Therefore be it resolved, That by the demise of the deceased this company has lost an exemplary fireman, the Government a faithful employee, and his widow a kind and devoted husband;

Resolved, That this company condole with the family of the deceased in their bereavement and pray that the All-wise would have them in His keeping;

Resolved, That these resolutions be spread upon the records of the company, and a copy thereof be forwarded to the widow of the deceased.

Mr. Smith introduced a resolution to instruct representatives of the company at the Board to vote against the proposed division of the Inter-Island Steam Navigation Co.'s donation. The opposition to this resolution was so strong, however, that it was withdrawn by the mover, and a resolution giving instructions in favor of the division of the money was carried.

Protection Hook and Ladder Company met in their Hall at the Bell Tower, with a rally of a dozen members, including Mr. G. Norton, foreman, and G. Rose, secretary. Six new members were elected. The report of the committee on decorations for the procession was accepted and a vote of thanks returned to the committee. After a brief discussion a resolution was passed in favor of the Chief Engineer's proposal to divide the I. I. S. N. Co.'s present among the different companies.

The Scavenging.

The new order about the disposal of refuse was the occasion of much discussion about town yesterday. Some doubted that the decree implied complete abandonment of the scavenging service by the Government, but those who put out containers of refuse and saw them lying untouched all day were convinced on that score. Last night heaps of sweepings were to be seen in the Fort street gutters, so that if the Government means business a crop of test cases may be anticipated shortly. Before the contract was made which apparently has just fallen through, the scavenging service was in the hands of the Board of Health, and some people think that body should have resumed it, at least, until longer notice had been given the public. Private enterprise has stepped in, however, to offer relief on easy terms to the public. Mr. Burgess will require a little time to ascertain just what amount of equipment and labor the work requires, and it is to be hoped the authorities will be lenient, in the emergency of their own creation, until the private service is systemized.

Baron Sadoie, late manager of the great Belgian Cockerill Iron Works, near Liege, is about to start for China, whither he has been called by its Government, to start immense arsenal and ship-building yards.

Work has been begun on the railroad extension from Riverside through Arlington toward Los Angeles.

The Best Tonic.

Mr. Henry Billings, Washington, D. C., writes: "I have used your Duffy's Pure Malt Whisky for medicinal purposes. As a tonic I consider it superior to the hundreds of concoctions which are now flooding the land as stimulant liquors."

Lively Runaway.

Hack No. 28, belonging to Hook Loong, was last evening standing at the Chinese wash-house on Merchant street, a little boy holding the horse while the driver was getting his supper. Something frightening it, the horse bolted and went tearing down the street, past the Police Station and rounding the corner of Nuuanu street. A native on horseback followed in hot pursuit, overtaking and lassoing the runaway near the Fish Market. One of the carriage lamps was lost overboard in the flight, but was picked up by Harry Grube, clerk at Capt. Marchant's, and one of the fore wheels was dished by contact with a lamp post. The carriage was a new one, imported only the 15th of last month.

Youthful Sporting Organization.

Some of the young lads of Honolulu have organized a Hare and Hounds Club. J. Lancaster is captain of the hares, and Bennie Whitney of the hounds. The first one was on Tuesday last, when the hares team consisted of Whitney, Willie Bruns, Willie Harris and E. Rollin, and the hounds J. Lancaster, M. Lancaster, Frank Lillas and Johnnie Wright. Emma Square was the starting point and the run was to the Makiki recreation grounds. The hares were given the regulation five minutes of a start, but were all run down in twenty minutes. To-night the race will be from Emma Square up the Valley.

Great distress is anticipated at Dantzic, Germany, the coming winter. Trade is paralyzed, the Government dockyards are discharging men weekly, and in the arms factories there are also many hundreds idle.

It is now proposed to make the Los Angeles river navigable by the construction of a series of locks.

BIRTH.

At Victoria, B. C., November 9th, to the wife of T. M. Henderson, lately of Honolulu, a daughter.
